Education

Netaji Subhas University of Technology (NSUT) **New Delhi, India**
Bachelor of Technology in Computer Science and Engineering *Nov 2022-May 2026*

– Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Experience

Quality assurance Engineer Intern **May 2024 – July 2024**
Amazon *Bengaluru, India*

– Developed and tested applications using **Python, SQL, JUnit**, creating 200+ test cases and identifying defects.

– Collaborated with developers and QA teams in **Agile** sprints and worked with **AWS CodePipeline** for CI/CD and deployments.

Projects

TravelHub | *Node.js, Express.js, MongoDB, EJS, Passport.js, REST APIs, MVC*

– Built a production-grade travel booking platform with role-based access control, session management via **Passport.js**, and scalable RESTful APIs supporting **100+ test scenarios**.

– Designed optimized **MongoDB** schemas applying DBMS normalization principles, improving data retrieval performance by **30%** and reducing query overhead.

– Established robust error-handling and unit-testing pipelines, achieving **20% reduction** in runtime failures and improving overall code reliability.

Smart Irrigation Path Optimization (SIPOS) | *Python, Reinforcement Learning, OpenCV, XGBoost*

– Built an AI-powered data platform processing 1,000+ real-world sensor records to optimize irrigation decision-making using ML pipelines with XGBoost and Reinforcement Learning (PPO, Q-Learning) — improving accuracy by 30%.

– Architected modular, OOP-based components with reusable design patterns, improving maintainability by **25%** and reducing experimental iteration errors by **20%**.

Technical Skills

Languages scripting::Python, C++, JavaScript, SQL, HTML5, CSS3

AI ML::Machine Learning, Generative AI, LLMs, RAG, Prompt Engineering, Agentic AI, AI Agents

Frameworks & library: Node.js, Express.js

Database & query: MongoDB, MySQL

Tools & platform: GitHub, VS Code, AWS

Achievements & Certifications

- **AWS Certified Solutions Architect certification** -Demonstrated cloud architecture and services proficiency.
- **Solved 900+ data** structures algorithms problems across LeetCode, and GeeksforGeeks, with a focus on algorithm design and complexity analysis
- **Coding Ninjas C++ DSA:** finished the whole DSA curriculum and course in C++
